## Batteries Event 2025

- 3 days congress in France (Lyon)
- November 4-6, 2025
- 27<sup>th</sup> Edition (first edition in 1999)
- 1,200+ attendees
- 130+ Booths  
Battery makers, raw materials suppliers, IC & BMS suppliers, tests, machining, coating,
- 175+ international speakers:  
Researchers, industrial process, marketing, financials

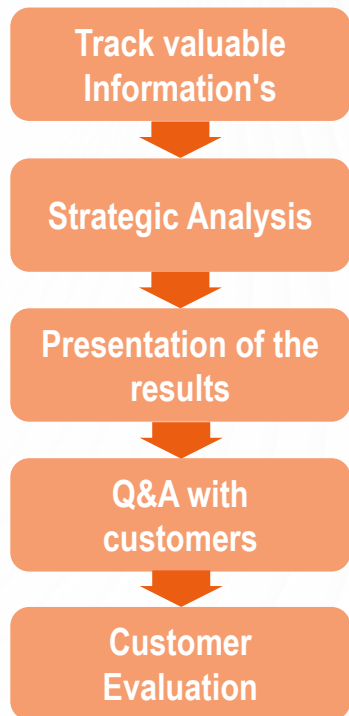

**BATTERIES**

## Christophe PILLOT, Partner – AVICENNE ENERGY

### Director, Battery and xEV expert

Christophe has built up considerable expertise in the area of battery market. He joined AVICENNE 30 years ago and Spend 3 years in Japan making analysis on the Electronic, Mobile & Japanese battery market. Christophe gained large experience in marketing, strategy analysis, technology and financial studies for the battery and power management fields. He developed the Battery market analysis for AVICENNE which counts more than 350 customers worldwide. Christophe published several annual surveys like “The rechargeable battery market and trends 2035”. He is also the founder & chairman of Batteries congress in France since 1999. He is now Director at AVICENNE ENERGY.

He has recently lead or participated in missions such as:

- Lithium ion battery suppliers' profile
- PSA-SAFT project expert analysis for ADEME
- Detailed lithium ion cell cost analysis
- Lithium ion battery cost analysis for different OEM (Nissan, Ferrari, GM)
- Additive for Lithium ion Electrolyte
- Anode market for Li-ion battery market & roadmap
- Lithium carbonate & hydroxide market
- xEV and E-bus battery market in China
- Lithium ion battery Cathode and Anode market and value chain analysis
- Lithium ion battery market beyond electronic devices & automotive: industrial batteries (UPS, Telecom, Back-up, Energy Storage systems...)
- Analysis of the flow battery suppliers worldwide: large group & start-up analysis
- Industrial battery market worldwide 2015-2025
- TESLA, BOLLORE analysis: battery choice, battery pack, cost curve, partnership, business model
- Lithium iron phosphate cathode market details and forecast – China Focus
- Detail profile of anode, cathode, electrolyte and separator makers
- Gel and solid electrolyte market and forecasts
- Automotive battery market related opportunities
- Opportunities in Lithium ion batteries for an US Speciality Chemical company
- SWOT analysis of 20 separator makers
- Li-ion pack makers market and business plan
- Expert Witness in the NTT DoCoMo Vs. Hydro-Quebec IP dispute negotiations
- Expert Witness in the UMICORE Vs. BASF IP dispute negotiations
- Battery pack analysis – Opportunities to integrate power electronics & chargers in the pack

Christophe is Speaker, chairman or workshop moderator at +20 international conferences worldwide each year (BATTERIES France, IBS Florida, AABC US and Europe, CIBF China, LBIS Shenzhen, BATTERY JAPAN, INTERTEK KOREA,

Globally, he has been involved in more than 300 projects for 350+ customers in the Battery Value Chain.

Before joining AVICENNE, Christophe PILLOT held key position in FRANCE TELECOM innovation division.

Degree in Chemistry & MBA in Innovation Management from Paris IX Dauphine.

His mother tongue is French, and he speaks fluent English

# AVICENNE Team - Senior Advisor

## Michael SANDERS

### Battery and Automotive expert

Mike is our US expert in Batteries and Materials. He is working at Sanders Group Enterprises, AVICENNE US Agent. He is responsible for proprietary projects supporting customers growth efforts, completing the interviews, writing the reports and mainly solicited for his knowledge on the US market. He has recently participated in missions such as:

- Battery Show, AABC and Solid State Market Presentations
- Strategy Workshop for potential entrance into Lithium Ion Battery materials
- Market connections and validation of opportunities in Lithium ion batteries for a US Speciality Chemical company
- Strategy and Market advisor to all levels of the value chain: minerals, materials, cell makers and OEMs
- Recycling, LIB Cathode, anode, separator and other analysis
- Diligence programs for DOE and other acquisition or market entrance activities
- High Si Loading Lithium Ion Battery roadmap
- Anode market for Li-ion battery market & roadmap
- Business development for new clients based on his network

Before forming the Sanders Group and becoming an agent for Avicenne, he had a long career with DuPont in multiple roles. Mike has significant energy storage materials value chain understanding with an emphasis on lithium ion batteries and systems with 10 years of market knowledge and relationships. Successful program leadership experience with significant business growth in ventures and existing businesses with a proven track record leading mergers and acquisition team to enter the lithium ion battery materials market. Most recent role with DuPont was the Global Marketing Director – Energy Storage Venture where he developed significant understanding and insights for the energy storage materials market, device manufacturing and systems while leading global marketing and customer interface efforts to establish programs to enter the \$20B energy storage materials market. Executed strategic and market planning for opportunity evaluation, research, and choices for entry into rapidly growing new market.

#### Education

Bachelor - Chemistry, University of Delaware, Newark, Delaware

#### Affiliations

Society of Automobile Engineers, Electrochemical Society

# AVICENNE Team - Senior Advisor

## Fabrice RENARD

### Battery and Advanced materials expert

With more than 25 years of experience in business consultancy and management of chemical and advanced materials business in Belgium, Morocco and China, Fabrice gained strong experience on strategy, M&A, manufacturing, marketing, finance and innovation on high growth new technology business. He joined AVICENNE in 2020.

He is responsible for proprietary projects supporting customers growth efforts, completing the interviews, writing the reports and mainly solicited for his knowledge on economical and industrialization of existing and future materials alongside the battery value chain.

■ Prior AVICENNE, Fabrice was Chief Innovation Officer of the Prayon group. Over 10 years, he was in charge of the global R&D and Innovation strategy based on sustainable major trends and declined on nutrition, water, precision farming, rare elements recovery and energy. He led various up and downstream complex high-level international negotiations and partnerships including business or technology acquisitions. One of his core focus was the development of cathode materials. In this field, he earned a strong expertise on the battery value chain and served as COO of Belife, a joint venture with Umicore and as a Director of Prayon Pulead Technology, a Chinese-based LFP manufacturer.

Additionally, Fabrice holds different positions in Belgium and Morocco for Eklo, a consulting firm for emerging new business as managing director, for IDCampus, a creative lab as CEO and for Prayon as financial controller, marketing and business development manager, process and plant manager. He holds a Master in Chemical Engineering, a Postgraduate Diploma in Business Administration, an Executive Degree in Tax Law and an Executive Master in Management.

His mother tongue is French and he is fluent in English.

# AVICENNE Team - Consultant

## Hengfeng CUI Battery expert

Hengfeng is our expert in the field of electrochemistry and APAC countries battery market. He is responsible for completing the interviews especially in China, South-Korea & Japan and writing the reports. He joined Avicenne 2 years ago. He has recently participated in missions such as:

- Lithium-ion battery Cathode market and value chain analysis
- The Chinese rechargeable battery market
- Cathode, anode and electrolyte provider company profiles in China
- Recycling battery market trends in China
- Hybrid Solid-State Battery recent development in China

Before joining AVICENNE, Hengfeng held International Business Development Manager position at Pulead Technology Industry, one of the major Cathode Active Material producer, for 5 Years.

Bachelor's degree in Chemical Engineering & Technology in Beijing, China.

Master of Engineering Science in Chemical & Bioprocess Engineering in Dublin, Ireland.

His mother tongue is Chinese, and he speaks fluent English.

# AVICENNE Team - Consultant

## Jean Philippe SALVAT Battery expert

Jean Philippe is our expert in the field of electrochemistry. He is responsible for completing the interviews, writing the reports and mainly solicited for his technical input. He joined AVICENNE 30 years ago.

He has recently participated in missions such as:

- Lithium carbonate & hydroxide market
- xEV and E-bus battery market in China
- Lithium ion battery Cathode market and value chain analysis
- The rechargeable battery market
- Lithium ion battery market beyond electronic devices & automotive: industrial batteries (UPS, Telecom, Back-up, Energy Storage systems...),
- Opportunities in Lithium ion batteries for a US Speciality Chemical company
- LIB Cathode, anode, electrolyte & separator cost analysis
- SWOT analysis of 20 separator makers
- Li-ion pack security needs: PPTC
- Li-ion pack makers market and business plan
- Battery pack analysis – Opportunities to integrate power electronics & chargers in the pack

Before joining AVICENNE, Jean Philippe held Analyst position in DL See Consultant (3 Years) and Research Center Pont à Mousson SAINT GOBAIN (2 Years)

Degree in Material Science.

His mother tongue is French, and he speaks fluent English.

## AVICENNE Team – Senior Advisor

**Olivier NOEL**

**Consultant, Energy Storage and Industrial Films Expert**

Olivier is our US expert in Energy Storage and Industrial Films. He is working for the Sanders Group Enterprises, AVICENNE US Agent. He is responsible for proprietary projects supporting customers growth efforts, completing the interviews, writing the reports.

He has recently participated in missions such as:

- Industry Market Reports for Energy Storage
- Opportunity Assessments for Energy Storage
- Strategy Workshops for potential growth into Lithium-Ion Battery materials for multiple materials companies
- Business development for new clients

Olivier had 15-year career with DuPont in different roles in Marketing and Sales. As a Six Sigma Black Belt resource, Olivier has led over 18 projects as New Business Development Leader for renewable energies and energy storage. With thousands of hours spent as project manager, he grew his knowledge in materials, different value chains with an emphasis on lithium-ion batteries.

With a solid track record of successful growth programs, Olivier increased his leadership experience with significant business growth in new film technologies destined to the energy storage market. In his most recent role, Olivier has been leading global marketing and customer interface efforts to establish programs to enter energy storage materials market. He has executed strategic and market planning for opportunity evaluation, research, and choices for entry into rapidly growing new market.

Education: Master in Economy specialized in International markets from CNAM, France

# AVICENNE Team – Program Management

**Dave SANDERS**

**Manager, Programs & Marketing**

Dave supports clients throughout the North American battery value chain – conducting market intelligence, leading opportunity assessments, research studies and interviews while contributing to business strategy development. He supports Avicenne's digital marketing and business development efforts, and is also responsible for data collection and analysis as well as resource identification and management.

He has recently participated in missions such as:

- Global battery supply chain market scoping, covering everything from mining, material processing, component production, cell assembly, module/pack assembly, research facilities and recycling plants
- The recycling and 2<sup>nd</sup> use battery markets
- Cathode and anode market outlooks and trends
- Regional ESS segmentation for UPS, Telecom, Microgrids, Behind and In Front of Meter
- Various applications beyond automotive including powersports, marine, people movers, power tools
- Exploring strategic options in the battery value chain

Before joining Avicenne, Dave was a strategic partner related to digital marketing and market intelligence for many healthcare companies and managed a team responsible for market assessments, advertising strategy development, and campaign management. He drove innovation through partnering with clients to achieve many industry and organizational firsts. He also has experience in the IT and data privacy/data security fields.

## Batteries Event 2024

- 3 days congress in France (Lyon)
- October 16–18, 2024
- 26th Edition (first edition in 1999)
- +1,000 attendees
- +100 Booths  
Battery makers, raw materials suppliers...
- IC & BMS suppliers, tests, machining, coating,
- +160 international speakers:  
Researchers, industrial process, marketing, financials

# Avicenne Energy: what else can we do for you?

## Avicenne Energy Competencies

Avicenne Energy has provided deep market understanding, insights, strategic support and consulting in the rechargeable battery market for nearly 30 yrs.

We recognized the major challenges for many projects moving forward and to help drive growth in the battery industry: Availability of experienced people with battery and materials capabilities, along with resources to fill current organization gaps until the programs progress to have internal resources and to support governmental funding programs.

Avicenne Energy began to fill these gaps with our clients with very experienced resources both from our core team and subcontractors in 2018, this has continued to expand in the EU, US and AP to support clients.

Examples of projects underway and completed:

- M&A and Investment support – Target development, strategic fit, pre-diligence, and diligence
- DOE Submissions and Loan Validation Diligence
- Engineering Plans for Cell Plant – Pilot And Giga-scale
- RFI/RFP for materials and equipment
- Cell Plant Start-up Validation and Quality Audits
- Deep technology and process expertise in many areas of the battery value chain

- Detailed market opportunity and mapping analysis by segment, region and globally
- Our experts include a major engineering firm, ex-cell manufacturing and technology leaders, battery pack manufacturing and technology leaders, deep materials experts, etc. Our team continues to grow as our clients are driving more projects forward.
- **If you are interested in learning more, are facing experienced resource challenges or becoming part of our team, please let us know.**
